

## Electronic Pressure Transmitter with HSI Sensor Recognition HDA 4748-H

### Description:

The pressure transmitter HDA 4748-H with HSI sensor recognition has been specially developed for use in conjunction with HYDAC measuring instruments HMG 500, HMG 510, HMG 3000, HMG 3010 and CMU 1000.

For data transmission, the HDA 4748-H has an HSI interface (HYDAC Sensor Interface).

The HSI sensors are automatically recognised via the HSI interface by the above-mentioned HYDAC measuring instruments and all necessary basic device settings are taken from each sensor.

Like all pressure transmitters of the HDA 4700 series, the HDA 4748-H also has a very accurate and robust sensor cell with a thin-film strain gauge on a stainless steel membrane. It combines excellent technical specifications with a very compact design.

### Special features:

- Fully automatic recognition by, and voltage supply from, HYDAC measuring instruments HMG 500, HMG 510, HMG 3000, HMG 3010 or CMU 1000
- Automatic transfer of measuring range, measured value and measurement unit
- Accuracy  $\leq \pm 0.25\%$  FS typ.
- Highly robust sensor cell
- Very small temperature error
- Excellent EMC characteristics
- Excellent long term stability
- Very compact design

### Technical data:

| Input data                                               |                                                                                  |
|----------------------------------------------------------|----------------------------------------------------------------------------------|
| Measuring ranges <sup>1)</sup>                           | -1 .. 9; 16; 60; 100; 250; 400; 600; 1000 bar                                    |
| Overload pressures                                       | 20; 32; 120; 200; 500; 800; 1000; 1600 bar                                       |

Note: Reverse polarity protection of the supply voltage, excess voltage, override and short circuit protection are provided.

FS (Full Scale) = relative to the complete measuring range,

B.F.S.L. = Best Fit Straight Line

<sup>1)</sup> 1000 bar only with mechanical connection G 1/2 DIN 3852 and vice versa

<sup>2)</sup> -25 °C with FPM seal, -40 °C on request

## Model code:

HDA 4 7 4 8 - H - XXXX - 000

### Mechanical connection

- 2 = G1/2 DIN 3852 (male)  
(only for "1000 bar" press. range)  
4 = G1/4 A DIN 3852 (male)

### Electrical connection

- 8 = Male, M12x1, 5 pole  
(connector not supplied)

### Signal

- H = HSI (automatic sensor recognition)

### Pressure ranges in bar

0009; 0016; 0060; 0100; 0250; 0400; 0600 (only in conjunction with mech. conn. "4")  
1000 (only in conjunction with mech. connection "2")

### Modification number

000 = Standard

### Note:

On instruments with a different modification number, please read the label or the technical amendment details supplied with the instrument.

### Accessories:

Appropriate accessories, such as electrical connectors, can be found in the Accessories brochure.

## Note:

The information in this brochure relates to the operating conditions and applications described.

For applications or operating conditions not described, please contact the relevant technical department.

Subject to technical modifications.
